

Dear Parents and Carers,

Hello/Χαίρετε

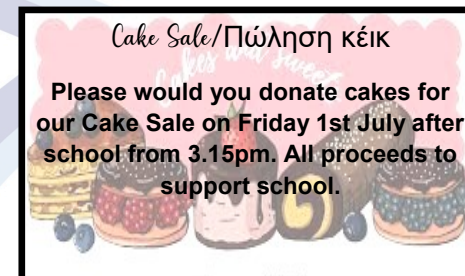

I hope that you are well and have been enjoying the sunshine. This week the children have been very busy in their learning. We have had **Local Authority Moderators** in school to check our end of year judgements. I'm pleased to say that they agreed with us. Well done to all the Year 2 teachers.

I am so impressed with all the homework that we have seen recently from Year 2 children, their **homemade aircrafts** are superb. Thank you to all the parents and carers who have supported the children. I especially enjoyed watching a short video made by Isaac in Class 5 with background sounds!

The week beginning **Monday 11th July**, we will have our annual **Healthy Week**, during this time the children will engage with lots of different activities to support their physical and mental well-being. This year we have invited the **ProKick Sports Challenge** into school. This organisation will organise a fun sponsored event for all the children to enter and raise money for the school and the charity. On **Wednesday the 13th of July** we will have our first **Sports Day** with visitors in over 2 years. We are inviting parents and carers to come along and support the children in their multi skill type activities on the back field. From 9.15am -11.30am approx. [weather permitting].

Have a lovely weekend.

Best wishes, Mrs Rae Lee [Headteacher]

### Pre School/νηπιαγωγείο

**Preschool** children have been digging for worms and using new vocabulary like 'wiggly', 'squirm' and 'wormery' all linked to the book, 'Superworm'. They have made some amazing 'homes' for the creatures showing lots of wonderful imaginative play. Also, whisks have been used to make bubbles in the water tray which is a great strengthening activity for arm muscles. They have also practised taking shoes and socks on and off independently and learning how to move the mats in the school hall in PE sessions and they also enjoyed lunch in the hall on Tuesday.

**Next week**, we need ice cream boxes for our role play. We will read the book 'A Squash and a Squeeze' and we are also looking forward to a visit from a doctor soon.

### Year R/Έτος R

This week in **Class 1 and 2** we have been enjoying some **computing!** We have experimented with creating an audio recording on a iPad and have had a go at programming using 2Go. In **literacy** we have been learning to write a simple sentence, beginning it with a capital letter and ending with a full stop. **Maths** learning has focused on noticing and continuing patterns within numbers to 10, including odd and even numbers, double facts and how quantities can be shared equally.

**Next week**, in our **enquiry** sessions we will be learning about the sculptor Antony Gormley and using clay to experiment with a range of techniques, including coiling.

### Year 1/Έτος 1

**Class 3 and Class 4** have had another busy week with lots of Involved Iguanas. We have enjoyed programming the Bee-Bots in **computing** and even predicting and testing which surfaces they move better on when programmed. In **English** we have been planning our alternative version to 'Jack and the Beanstalk', and have made our own changes, ready to write our own version. Maybe your child could use simple sentences and story language to tell you their own version. In **maths** we have been learning about place value, by partitioning two digit numbers into tens and ones.

**Next week** we will be comparing and ordering numbers. In **enquiry** we will be looking at Antony Gormley particularly his sculptures, for art and design.

### Year 2/Έτος 2

**Class 5 and 6** have been acting out a new version of 'The Runaway Chapati' in **English** with actions to their classmates. Ask the children to show you their version, they are good! In **maths** they have worked on a medley of addition and subtraction work. The afternoons have been jam packed with the children using the i-pads to video themselves in **computing**, sharing facts about the Wright Brothers and programming a Bee-Bot.

**Next week**, the children are going to start investigating the work of the artist Antony Gormley. They will plan their writing for their own version of the crafty chapati in **English** and in **maths** they will be solving addition and subtraction problems.

*Dates/Ημερομηνίες*

Friday 1st July	<b>Stay &amp; Play</b> for New 2022 Reception children [9.15am –10.15am on the front playground]
Friday 1st July	<b>Cake Sale</b> - please donate cakes for our Sale, we will sell from 3.15pm [cash only]. All proceeds will purchase new resources.
Friday 8th July	<b>Stay &amp; Play</b> for New 2022 Reception children [9.15am –10.15am on the front playground]
Friday 8th July	Annual <b>School Reports</b> shared online
Friday 15th July	<b>Stay &amp; Play</b> for New 2022 Reception children [9.15am –10.15am on the front playground]
Monday 11th July	<b>Healthy Week:</b> children will need to wear their PE Kits all week [White t-shirt, blue or black shorts/leggings and suitable footwear i.e. trainers] <b>Monday:</b> Taster Tennis sessions, <b>Tuesday:</b> ProKick Sponsorship event, <b>Wednesday:</b> Sports Day [9.15am-11.30am weather permitting ], <b>Thursday:</b> Static bikes, <b>Friday:</b> yoga
Thursday 21st July	<b>Last Day of Term</b>

*School Council/Σχολικό Συμβούλιο*

On Monday, the **School Council** met for a slightly different purpose. We were getting our 'Cool Down Book Club' trolley up and running. The children worked well together to clean and prepare the cart that Mrs Lee kindly donated, then filled it with books they thought their friends would enjoy reading in the shade during lunchtime. As the school councillors wheeled the cart into the outdoor classroom, the children flocked to read the books – what a great start! Well done and thank you to our councillors.
