

## Autumn 1 Science - plants

Knowledge <i>I know...</i>	Skills <i>I can...</i>	Links back to <i>I remember...</i>
<ul style="list-style-type: none"> <li>The names of some of the plants in our school grounds (including flowers and trees).</li> <li>A plant is a living thing that moves, respire, grows, reproduces etc.</li> <li>Plants need water, light and a suitable temperature to grow and stay healthy.</li> <li>Seeds and bulbs grow into plants.</li> <li>Pictograms and block diagrams can be used to present data clearly.</li> <li>Pictograms and block diagrams help to answers questions about totalling and comparing.</li> </ul>	<ul style="list-style-type: none"> <li>I can identify and name some of the plants in our school grounds (including flowers and trees)</li> <li>I can present results using a pictogram and/or block diagram charts with help (plants in school grounds)</li> <li>I can explain what makes a plant a living things</li> <li>I can talk about what a plants need to grow and stay health</li> <li>I can plant a seed and/or bulb</li> <li>I can observe and describe changes over time (bean diary)</li> <li>Ask questions in a group</li> <li>Plan simply what to do, in a group</li> <li>Predict the outcome of an investigation in a group</li> <li>Use a table to display results (headings given by teacher).</li> </ul>	<ul style="list-style-type: none"> <li>A plant is made up of a root, stem/trunk, leaves and flowers</li> <li>A tree is a plan</li> <li>Labelling the parts of plants</li> <li>Planting a sunflower</li> </ul>

<p><b>Vocabulary:</b></p> <p><b>Bulb:</b> a plant bud that begins to grow underground  <b>Seed:</b> the small parts produced by plants from which new plants grow  <b>Observe:</b> to look closely  <b>Plant:</b> a living thing which include flowers, trees and vegetables  <b>Pictogram:</b> a chart that uses pictures to represent data  <b>Predict:</b> make a guess about what might happen</p>	<p><b>Images:</b></p> 
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------

## Autumn 2 Science - materials

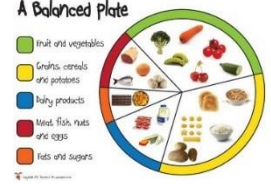

Knowledge <i>I know...</i>	Skills <i>I can...</i>	Links back to <i>I remember...</i>
<ul style="list-style-type: none"> <li>Most materials have never been alive</li> <li>Materials are what objects are made from e.g. fabric, wood, metal</li> <li>Materials have properties which make them suitable for different purposes</li> <li>Some materials are right for a purpose because of their properties e.g. a kettle is made of metal because it conducts heat and is waterproof</li> <li>Flexible materials can bend or compress easily without cracking</li> <li>Strong materials are able to resist heavy impacts and absorb and energy without breaking</li> </ul>	<ul style="list-style-type: none"> <li>Identify everyday materials including wood, metal, plastic, glass, brick, rock, paper and cardboard</li> <li>Describe the properties of materials</li> <li>Compare the suitability of everyday materials for particular uses</li> <li>Find out <u>how</u> the shapes of solids objects made from some materials can be changed by squashing, bending, twisting and stretching</li> <li>Ask questions using scientific language</li> <li>Plan simple what to do and what observations/ measurements to take</li> <li>Recognise some hazards</li> <li>Predict the outcome of an investigation</li> <li>Talk about what I have found out and how I found it out</li> </ul>	<ul style="list-style-type: none"> <li>Explaining what makes a plant a living thing</li> <li>Identifying everyday materials including wood, metal, plastic, glass, brick, rock</li> <li>Describing the properties of materials</li> <li>Sorting materials</li> </ul>

<p><b>Vocabulary:</b></p> <p><b>Absorbent:</b> soaks up water  <b>Flexible:</b> can be folded easily  <b>Material:</b> what objects are made from  <b>Observe:</b> to look closely  <b>Opaque:</b> can't be seen through  <b>Predict:</b> make a guess about what might happen  <b>Properties:</b> what a material is like and how it behaves (soft, stretchy)  <b>Suitability:</b> having the properties which are right for a specific purpose  <b>Stretchy:</b> can be pulled to make it longer or wider without breaking  <b>Transparent:</b> can be seen through  <b>Waterproof:</b> it keeps water out. It keeps things dry</p>	<p><b>Images:</b></p> 
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------

## Science Enquiry Organisers: Year 2, Cycle 1

### Spring 1 Science – humans

Knowledge <i>I know...</i>	Skills <i>I can...</i>	Links back to <i>I remember...</i>
<ul style="list-style-type: none"> <li>Animals, including humans, are living</li> <li>That animals, including humans, have offspring which grow into adults</li> <li>Animals, including humans need water, food and air to survive.</li> <li>To stay healthy humans need exercise</li> <li>To stay healthy humans need the right amounts of different types of food</li> <li>How and why I should keep myself clean</li> </ul>	<ul style="list-style-type: none"> <li>Draw on a pictogram to show results (favourite healthy food)</li> <li>Describe how animals inc humans change as they grow</li> <li>Match animals and their babies</li> <li>Ask and answer questions about a pet</li> <li>Find out about and describe the basic needs of animals, including humans, for survival</li> <li>Identify healthy and unhealthy food and say how much of them I should eat</li> <li>Give reasons why humans need to exercise</li> <li>Gather information and answer a question</li> <li>Look closely and record what I see</li> </ul>	<ul style="list-style-type: none"> <li>Human beings have different body parts</li> <li>There are 5 senses</li> <li>Our sense of touch is linked to our hands/skin</li> <li>Our sense of taste is linked to our mouth/tongue/throat</li> <li>Our sense of hearing is linked to our ears</li> <li>Our sense of smell is linked to our nose</li> <li>Our sense of sight is linked to our eyes</li> <li>A pictogram is a picture representation of data</li> <li>Investigating which material would be best for a flag/bunting/bag</li> </ul>

<p><b>Vocabulary:</b></p> <p><b>Body:</b> the physical structures including bones, flesh and organs of a person or animal.</p> <p><b>Human:</b> a man, woman or child</p> <p><b>Pictogram:</b> a pictorial representation of data on a chart, graph, or computer</p> <p><b>Offspring:</b> a person's children or an animal's young</p> <p><b>Exercise:</b> being active</p> <p><b>Healthy:</b> keeping your body 'working at its best'</p> <p><b>Survive:</b> to remain alive</p> <p><b>Grow:</b> increasing in size or changing physically</p>	<p><b>Images:</b></p> <div style="display: flex; justify-content: space-around; align-items: center;">    </div>
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

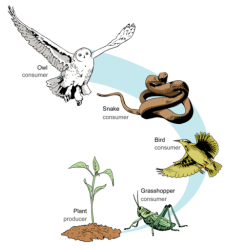

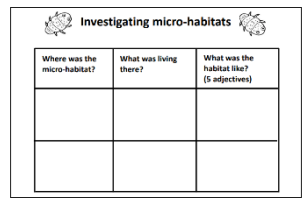

### Spring 2 Science – animals

Knowledge <i>I know...</i>	Skills <i>I can...</i>	Links back to <i>I remember...</i>
<ul style="list-style-type: none"> <li>That living things – move, reproduce, grow, breathe (respire), excrete, gets nutrients</li> <li>Dead things were once alive (and no longer do the above).</li> <li>Some things have never been alive</li> <li>Most UK animals live in habitats to which they are suited</li> <li>That UK animals and plants depend on each other</li> <li>How UK animals obtain their food</li> </ul>	<ul style="list-style-type: none"> <li>Compare differences between living, dead and never been alive</li> <li>Describe how different UK habitats provide basic needs for UK animals</li> <li>Use a simple food chain</li> <li>Identify and classify different UK animals</li> <li>Group and classify in different ways</li> </ul>	<ul style="list-style-type: none"> <li>What a fish, bird, reptile, mammal and amphibian is</li> <li>What a herbivore, carnivore, omnivore eats</li> <li>Labelling the parts of common animals</li> <li>The life-cycle of a chick</li> </ul>

<p><b>Vocabulary:</b></p> <p><b>Dead:</b> Dead things were once alive and no longer move, reproduce, grow, breath (respire), excrete, get nutrients</p> <p><b>Excretion:</b> getting rid of waste from the body</p> <p><b>Food chain:</b> a series of organisms each dependent on the next as a source of food</p> <p><b>Habitat:</b> where an organism lives</p> <p><b>Nutrients:</b> a substance that provides nourishment</p> <p><b>Reproduce:</b> making a new generation – animals have babies, new plants grow from seeds</p> <p><b>Respire:</b> using oxygen to turn food into energy</p>	<p><b>Images:</b></p> 
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------

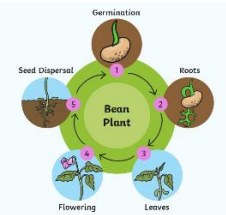

**Summer 1 Science – animals**

<p><b>Knowledge I know...</b></p> <ul style="list-style-type: none"> <li>• Most animals live in habitats to which they are suited</li> <li>• Animals and plants depend on each other</li> <li>• How animals obtain their food</li> <li>• The food chain for at least one animal</li> <li>• What a micro-habitat is and which animals may live there</li> </ul>	<p><b>Skills I can...</b></p> <ul style="list-style-type: none"> <li>• Describe how different habitats provide basic needs for animals around the world</li> <li>• Use a simple food chain</li> <li>• Identify and name different sources of food</li> <li>• Identify and classify different animals from around the world</li> <li>• Group and classify in different ways</li> <li>• Identify and name a variety of animals in micro-habitats</li> <li>• Use scientific vocabulary</li> <li>• Use different sources of information answer questions</li> </ul>	<p><b>Links back to I remember...</b></p> <ul style="list-style-type: none"> <li>• How to compare differences between living, dead and never been alive</li> <li>• Some UK habitats and the animals that live in these</li> <li>• How UK animals obtain their food</li> </ul>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<p><b>Vocabulary:</b></p> <p><b>Consumer:</b> living thing that feeds on an animals or plant for energy  <b>Food chain:</b> a series of organisms each dependent on the next as a source of food  <b>Habitat:</b> where an organism lives  <b>Micro-habitat:</b> a habitat that is small  <b>Predator:</b> an animal that naturally preys on others  <b>Prey:</b> an animal that is hunted and killed by another for food  <b>Producer:</b> living things that creates energy</p>	<p><b>Images:</b></p>  
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

**Summer 2 Science – materials and plants**

<p><b>Knowledge I know...</b></p> <ul style="list-style-type: none"> <li>• The names of materials</li> <li>• The properties of materials e.g. fabric, metal, wood</li> <li>• That materials are suitable or unsuitable for particular purposes</li> <li>• That some materials are used for more than one thing e.g. metal used for can, spoon</li> <li>• That different materials are used for the same thing e.g. a spoon (can be wooden, metal or plastic).</li> <li>• The life-cycle of a plant (link to poetry)</li> <li>• That plants need water, light and a suitable temperature to grow</li> </ul>	<p><b>Skills I can...</b></p> <ul style="list-style-type: none"> <li>• Name, describe and give some examples of different materials</li> <li>• Compare the suitability of a variety of everyday materials</li> <li>• Choose a suitable material for a purpose e.g. a boat</li> <li>• Talk about how a particular materials is suitable for its purpose</li> <li>• Ask questions</li> <li>• Plan simply what to do, what observations or measurements to take</li> <li>• Predict the outcome of an investigation</li> <li>• Use simple equipment to gather data</li> <li>• Use pictograms to display results, draw bar charts with help</li> <li>• I can describe how a bulb/seed grows into a plant</li> <li>• I can explain what plants need to grow</li> </ul>	<p><b>Links back to I remember...</b></p> <ul style="list-style-type: none"> <li>• Objects are made from materials</li> <li>• Investigating a suitable material for a product</li> <li>• Planting bulbs</li> <li>• The names of some plants</li> </ul>
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<p><b>Vocabulary:</b></p> <p><b>Bulb:</b> a plant bud that begins to grow underground  <b>Life-cycle:</b> the different stages of <b>life</b> for a living thing  <b>Material:</b> what something is made of  <b>Observe:</b> to look closely  <b>Plant:</b> a living thing which include flowers, trees and vegetables  <b>Pictogram:</b> a chart that uses pictures to represent data  <b>Predict:</b> make a guess about what might happen</p>	<p><b>Images:</b></p>  
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------
